

Product designer focused on enterprise AI systems. Six years designing B2B tools that make dense admin workflows readable, actionable, and trustworthy, with recent work across Webex Control Hub AI Assistant, agentic workflows, and AI-assisted design tooling.

## EXPERIENCE

### Product Designer

[Cisco Webex](#)

Milpitas, CA | 2024.07 - Present

- Led end-to-end design for Control Hub AI Assistant, moving it from help bot to contextual assistance across search, reports, dashboards, and device workflows; monthly adoption grew from 3% to 18%.
- Designed contextual AI entry points inside existing admin workflows, including Smart Search and report analysis; reduced enterprise search dead ends by 86% through query-log analysis and LLM retrieval/ranking.
- Defined interaction patterns for agentic AI in Control Hub: editable plans, human approval moments, visible execution, and activity/audit trails for admin-controlled actions.
- Built interactive prototypes with React, TypeScript, and AI coding tools to test chat-to-workflow handoffs, widget states, and trust patterns before full engineering cycles.
- Built Write Like Webex, a Figma plugin/guideline system for in-canvas UI copy variants; 56 designers tried it.

### UX Designer

[SAP](#)

Palo Alto, CA | 2020.07 - 2024.07

- Led UX for SAP Fieldglass projects from vision to delivery.
- Designed modular homepage, worker dashboard, and worker profile patterns that surfaced pending tasks, spend signals, key dates, and role-specific actions; framework adopted by 1,000+ enterprise customers.
- Designed AI-assisted hiring and procurement concepts, including resume-ranking visualizations and generated procurement descriptions, to reduce manual decision prep in complex hiring workflows.

### UX Design Intern

[University of Michigan - Center for Academic Innovation](#)

Ann Arbor, MI | 2019.05 - 2019.12

- Improved educational web apps with clearer visuals and smoother interactions.
- Helped build the team's first design system with new visualization and interaction patterns.
- Ran design workshops and research sessions to foster a user-centric culture.

## EDUCATION

### University of Michigan, Ann Arbor

Master of Science | Human-Computer Interaction | 2020

### University of Michigan, Ann Arbor

Bachelor of Science | Architecture | 2018

## SKILLS

**Product & Interaction Design:** End-to-end product design · Interaction design · Information architecture · Design systems · Accessibility (WCAG) · Motion/interaction prototyping

**AI Product Design:** LLM/GenAI UX · Agentic workflows · Conversational UX · RAG/search UX · Trust & safety patterns

**Research & Validation:** Problem framing · User interviews · Usability testing · Rapid concept validation · Design reviews

**Tools & Systems:** Figma · Framer · Cursor · v0 · HTML/CSS
