yankunux@gmail.com
Portfolio: [yankun.one](#)

Product designer with 6 years in enterprise B2B, designing AI-powered tools that turn complex data and workflows into clear, trustworthy interfaces.

EXPERIENCE

Product Designer

[Cisco Webex](#)

Milpitas, CA | 2024.07 - Present

- Own end-to-end design of an AI assistant for IT admins in Webex Control Hub; grew adoption 3% → 18% by redesigning entry points, onboarding, and the analytics landing experience.
- Integrated an AI assistant into existing analytics dashboards and reports, enabling IT admins to surface insights, interpret complex data, and troubleshoot issues through natural-language interactions instead of manual analysis
- Lead interaction design for agentic AI workflows and generative UI: defined human-in-the-loop patterns, transparent working steps, and a reusable widget library adopted as a scalable design framework.
- Reduced enterprise search no-result rate by 86% through iterative query-log analysis and an LLM-based retrieval-and-ranking layer.
- Prototype rapidly with GenAI tools (Cursor, v0, Figma Make) to build interactive, system-driven prototypes; shipped an internal Figma plugin to boost design team throughput.

UX Designer

[SAP](#)

Palo Alto, CA | 2020.07 - 2024.07

- Led UX across a contingent workforce management platform in a complex cross-functional org — research, journey mapping, wireframing, prototyping, and engineering handoff.
- Redesigned Homepage, My Worker, and SoW dashboards into modular, role-based layouts with configurable data views, improving task completion for procurement and hiring managers.
- Designed data-driven AI features: automated resume ranking with scoring visualizations and AI-assisted procurement descriptions, reducing hiring-cycle time.

UX Design Intern

[University of Michigan - Center for Academic Innovation](#)

Ann Arbor, MI | 2019.05 - 2019.12

- Improved educational web apps with clearer clearer data visualizations
- Helped build the team's first design system with new visualization and interaction patterns.

EDUCATION

University of Michigan, Ann Arbor

Master of Science | Human-Computer Interaction | 2020

University of Michigan, Ann Arbor

Bachelor of Science | Architecture | 2018

SKILLS

Product & Interaction Design: End-to-end product design · Interaction design · Information architecture · Design systems · Accessibility (WCAG) · Motion/interaction prototyping

AI Product Design: LLM/GenAI UX · Agentic workflows · Conversational UX · RAG/search UX · Trust & safety patterns

Research & Validation: Problem framing · User interviews · Usability testing · Rapid concept validation · Design reviews

Tools & Systems: Figma · Framer · Cursor · v0 · HTML/CSS
